

Leicher Speechly Davidson & Harris

Registered Physiotherapists

PR. No. 0159247

As a physiotherapist I was really worried because I was getting wrist problems. When someone gave me a Bioflow Magnetic bangle, I started wearing it even though I was very sceptical about it helping.

I am pleased to say my hands have not given me any trouble in that time and so I am too scared to take the bangle off. That was 3 years ago, and the only time I take it off is to shower.

Yours Sincerely,

Evan Speechly
